# Introduction

Each year the ministry publishes a population list of all Alberta municipalities based on the most recent municipal census or latest federal census. This list contains municipal census population figures submitted to Alberta Municipal Affairs as of September 1 of the current year, in accordance with Sections 57 and 604 of the [Municipal Government Act](#) and the [Municipal Census Manual](#). Municipalities completing their own census must follow mandatory requirements as specified in the [Determination of Population Regulation \(63/2001\)](#) and the Municipal Census Manual.

Conducting a municipal census is at the discretion of the municipality. Most municipalities rely on the information provided by the federal census prepared by Statistics Canada once every five years. The most recent federal census was completed in 2016 and released on February 8, 2017.

If a municipality has not completed a municipal census, the 2016 federal census numbers have been used in the 2018 Municipal Affairs Population List.

This publication also contains the population counts for all First Nation Reserves and all Métis Settlements in Alberta. The population counts for First Nation Reserves were obtained from [Alberta Indigenous Relations](#).

# 2018 Municipal Affairs Population List

For most municipalities, only “usual residents” are included in their population counts. The shadow population counts are included with the usual resident count if the municipality has been given approval from the Minister of Municipal Affairs prior to conducting a census. The Regional Municipality of Wood Buffalo and the Improvement District No. 04 (Waterton) had a shadow population included with its regular census.
