Acknowledgments

The data for this report is collected through various sources such as the Canada Housing and Mortgage Corporation (CMHC), Statistics Canada, the Alberta Real Estate Association, the Calgary Real Estate Board, the Realtors Association of Edmonton, and various provincial government Departments.

Next Step

Our goal is to continue to share important information on a monthly basis on the housing market trends.

VOLUME 2, ISSUE I

IANUARY 2009

OVERVIEW

Welcome to the Housing and Urban Affairs' (HUA) Housing Bulletin. This marks our first issue of the monthly report for 2009, launched in June 2008. The report covers the latest housing market trends.

Overall housing starts across Alberta's seven largest centres totalled 836 units in January 2009, compared to 2,185 units in January 2008 (a decrease of 61.7 percent). Lower levels of activity were reported across six of Alberta's seven largest centres with decreases of 65.8 percent in the Calgary region, 63.9 percent in the Edmonton region, 78.2 percent in Grande Prairie, 58.5 percent in Lethbridge, 47.6 percent in Medicine Hat and 46.9 percent in Red Deer. Wood Buffalo was the only region reporting a 12.3 percent increase in year-over-year activity.

According to the Canada Mortgage and Housing Corporation (CHMC), Alberta housing starts were the weakest since 1996.

The average house price listed on the Multiple Listing Services (MLS) in Calgary in January 2009 was \$413,049, compared to \$455,297 in January 2008, down 9.2 percent.

The average house price listed on the MLS in Edmonton in January 2009 was \$352,689, compared to \$379,567 in January 2008, down 7.1 percent.

Highlights

- According to <u>Housing Now-Prairie Region</u>, released by CMHC, Alberta's housing starts plunged from 48,336 units in 2008 to 29,164 units in 2008, a 40 percent decline.
- According to the <u>Marketbeat Edmonton Apartment Report</u>, released by Cushman and Wakefield (formerly Royal LePage Commercial Real Estate), vacancy rates in Edmonton will continue to increase, which paired with increasing competition from rented condominiums, should curb rental increases.
- According to Canadian Real Estate Association forecast, the
 national MLS home sales activity is expected to decline in 2009
 before rebounding by 9.9 percent to 396,600 units in 2010. The
 rebound in home sales activity in 2010 is forecasted to be highest
 in both British Columbia and Alberta.

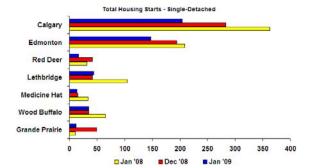

Housing Bulletin is now available for download from the ministry's internet site at
