Introduction

Each year the ministry publishes a population list of all Alberta municipalities based on the most recent municipal census or latest federal census. This list contains municipal census population figures submitted to Alberta Municipal Affairs as of September 1 of the current year, in accordance with Sections 57 and 604 of the [Municipal Government Act](#) and the Determination of Population Regulation. Municipalities completing their own census must follow mandatory requirements as specified in the [Determination of Population Regulation \(63/2001\)](#) and the [Municipal Census Manual](#). In most instances where a municipal census was conducted, the municipal census count would supersede the federal census count.

Conducting a municipal census is at the discretion of the municipality. Most municipalities rely on the information provided by the federal census prepared by Statistics Canada once every five years. The most recent federal census was completed in 2011 and the next federal census is scheduled for 2016.

This publication also contains the on-reserve population counts for all First Nation Reserves as well as censuses and/or membership counts for all Métis Settlements in Alberta. The on-reserve population counts and Métis Settlement counts were obtained from Alberta Aboriginal Relations.
