Introduction

This guide is provided to assist your company in understanding your 2017 linear property assessment notice (for the 2018 tax year) and related fields and columns.

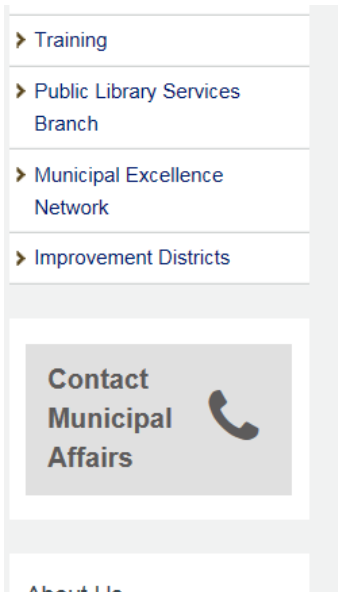

The format for the linear property assessment notice is the same for all seven property types:

- **Pipeline** (Alberta Energy Regulator (AER), Alberta Utilities Commission (AUC), National Energy Board(NEB)/Self-Reported)
- **Well**
- **Electric Power Generation**
- **Electric Power Transmission and Distribution**
- **Cable Distribution Undertakings**
- **Telecommunication Carrier**
- **Gas Distribution**

Although the format is the same for all seven types, the contents of the fields on the assessment notice may show different information.

Consequently, you will need to refer to the [2017 Alberta Linear Property Assessment Minister's Guidelines](#) when reviewing the specific details of your company's assessment. A copy of this document can be found at:

Linear Property Assessment Notice 2017 Assessment Year

The linear property assessment notice is made up of two parts:

1. A summary listing of the assessed property for the assessed person in a specified municipality, showing totals by property type (see sample on page 1). An explanation of the fields for this part is listed in the table below.
2. The detailed record of the assessed property (see sample on page 3). An explanation of the fields for this part is listed on pages 4 to 10.

The following table provides descriptions for items A to M on the sample notice on page 1. In the accompanying package of information this refers to the file "... Summary_Assessment.pdf".

Item #	Column or Field Headings	Description
A	Assessee MA ID	The Alberta Municipal Affairs (MA) assessed person identification number - assigned by the ministry's Stakeholders Information Management System (SIMS).
B	BA Code	The business associate identification number assigned by the Ministry of Energy.
C	Assessee Name	The name of the assessed person or corporation owning/operating the assessed properties.
D	Tax Jurisdiction MA ID	Alberta Municipal Affairs identification number (assigned by SIMS) for the Alberta municipality with the ability to levy property taxes.
E	Tax Jurisdiction Name	The name of the Alberta municipality with the ability to levy property taxes.
F	Linear Property	Field heading – see item G for details.
G	Type of linear property and code	Lists the type of linear property the assessed person or corporation has in this municipality. Seven different property types and codes are possible including: Pipeline (NRL-P), Well (NRL-W), Electric Power Generation (NRL-PGEN), Electric Power (NRL-EPS), Cable Distribution Undertakings (NRL-C), Telecommunication Carrier (NRL-T), and Gas Distribution (NRL-GDP).
H	AJ Total – AJ Name	Identifies the Assessment Jurisdiction that corresponds to the assessments displayed under columns J, K, L and M. The assessment jurisdiction is an identified geographic area within a municipality, and every AJ must belong to a municipality for levying property taxes. There must be one or more AJs per municipality.
I	TJ Total – TJ Name	Identifies the municipality for this assessed person or corporation that corresponds to the assessments under columns J, K, L and M.
J	Assessments	The total assessments by property type (K+L+M).
K	Taxable (T)	The total taxable assessments by property type subject to property taxes by the municipality.
L	Exempt (E)	The total assessment by property type exempt from taxation as per the <i>Municipal Government Act (MGA)</i> . These properties are assessable but not subject to property taxes by the municipality.
M	GIPOT (G)	The total assessment by property type that may be subject to a Grant In Place Of Taxes provided by a government body, as per the <i>MGA</i> .

Each assessed person will receive a summary of linear property assessments by municipality. If a municipality consists of more than one assessment jurisdiction, all related properties will be reflected on one linear property assessment summary notice.
